WEDDINGS BY STARDUST

our planning process

“ I like to take a team approach when it comes to design. I pull ideas from the client, then work with the florist and other vendors to finish out the design and make it better than we started. I spend a lot of time ensuring the couple is matched with vendors that fit their style, budget and personality! ”

“ The best source for inspiration is always the couple. They may have a feel or colors they like, but getting to know what's important to them or learning details about their relationship or life always helps bring in the personalization. This is what makes each wedding unique! ”

THE WEDDING OF
CATHRYN McCLELLAN & WILLIAM KELLY

Rafael Serrano Photography

DREAM WEDDING MAKER

"I don't know what I would do without Marsha and her team at Weddings by StarDust. Planning for a year and a half and then having everything shifted due to COVID-19, their experience and professionalism was truly the ace in the hole. Between putting together the last-minute living room wedding to replanning the large ceremony to be as safe as possible for our guests, I don't know what I would have done without them."

MY FAVORITE MEMORY

"Our favorite memory was all the fun we had celebrating with our family and friends at the reception. We enjoyed dancing, singing and partying the night away and will forever remember the great time we had with those that were able to attend."
